

North Olympic Healthcare Network is looking for a Family Medicine Physician to join our team.

- North Olympic Healthcare Network is a progressive Community Health Center providing high-quality Primary and Obstetrical Care, integrated Behavioral Health and Oral/Dental services for residents of the North Olympic Peninsula.
- We offer an opportunity for qualified Family Physicians to join a progressive, full-spectrum, quality-driven, patient-centered Medical Home. We have embraced and embodied the “Medical Home” model.
- We have 9 ABFM–Certified Family Physicians, and 6 Advanced Practice Clinician providers offering the full range of primary care services, including high-risk OB, to a service area of over 40,000 people.
- Port Angeles has a 120-bed hospital, Olympic Medical Center, offering access to a wide range of diagnostic services and consultants.
- We are affiliated with the University Of Washington School Of Medicine as a training site for medical students and residents, with regular teaching rotations.
- We are currently developing a Family Medicine Rural Training Track (RTT) Residency in partnership with Swedish Medical Center in Seattle, giving physicians an opportunity to be involved with graduate medical education.
- We are located in a newly constructed, state-of-the-art facility on the Port Angeles Waterfront. We are a growing practice, with consistently high-demand for our services.
- Port Angeles is located on the north Olympic Peninsula, approximately 2 hours west of Seattle, and 90 minutes by ferry from Victoria, British Columbia. It is nestled between Hurricane Ridge in the Olympic National Park and the Strait of Juan de Fuca. It is a place of incomparable beauty and limitless opportunity for outdoor activity including hiking, fishing, skiing, biking and has a thriving arts community.
- We offer a competitive compensation and benefits package to qualified, board-certified physicians who are interested in practicing gratifying, high-quality primary care (OB, inpatient care, and after hours call not required) within an integrated health center model in a smaller community with unparalleled beauty.
- Full-time is preferred. Less than full-time may be negotiated.
- You will be responsible for comprehensive management of patients, providing preventive and chronic disease management, with a focus on high quality Patient-Centered Medical Home practices.
- You will participate in the planning and management of health services as directed by the CMO, including participation in review of the quality care being provided, and continuing development of health care protocols and procedures.
